RE: BOIL WATER NOTICE LIFT #4036
LITTLE RIVER CO RDA - PWS ID # 787

The Department of Health has released the 'Boil Water' Notice confirmed on 11/18/2019 4:16:36 PM by Amber Lemley for the Area to the West of Little River 14 (Highway 32 Tank). This order was issued as a precautionary measure because of the possibility that contaminated water may have entered the distribution system as a result of complete loss in normal system pressure.

Bacteriological samples taken on Wednesday, November 20, 2019 were found to be free of bacterial contamination and a satisfactory disinfectant level has been established throughout the distribution system. The water is therefore considered 'Safe' for human consumption and the 'Boil Water' notice is hereby lifted.

Sincerely,

Dennis Taylor
Engineer Supervisor
